BRADYS
PLASTER PRODUCTS

Bradys... Building on over 70 years experience!

With a reputation as Western Australia's leading supplier of quality plaster compounds for over 70 years, it comes as no surprise that Bradys plaster products and compounds have been specially formulated for the professional plasterer who is looking for a lightweight and superior product.

Extremely easy to mix, work and apply, Bradys plaster products and compounds provide an excellent bond with either traditional clay bricks or aerated concrete blocks.

We have reduced the risk of product tampering and wastage which means that Bradys plaster products and compounds will also significantly improve on site cleanliness, reduce time delays and lessen demanding labour requirements.

Bradys Plaster Products and Compounds

Bradys plaster products and compounds are suitable for all residential and commercial requirements.

Bradys proven manufacturing techniques along with world class plant, equipment and facilities ensures that all plasters and compounds meet the stringent demands of regulatory bodies throughout Australia.

The company's pursuance of excellence also ensures Bradys plaster products and compounds are of a premium quality. **SUPERFINE PLASTER**

Specifications

APPLICATION:

1. This plaster has been especially formulated for fine work and is ideal for making moulds that require a very fine, hard and smooth finish.

Mixing

1. Into a clean mixing drum, add plaster to clean water at an approximate ratio of 2 volumes plaster to 1 volume water.
2. Allow to soak for two to three minutes before mixing thoroughly to produce a creamy consistency (mixing time approximately 15 seconds).
3. Working time is approximately 30 minutes.

Suitability

1. For flush jointing Plasterglass sheets.
2. For mould casting where high definition detailing is required.

3. For patching plaster products.

Made in WA

PRECAUTIONS:

- The dust and paste may be irritating to the skin, eyes and respiratory system.
- Avoid contact with eyes and skin. Avoid breathing dust. Wear suitable protective clothing. Wash thoroughly after handling. Wash work clothes regularly. Work in a well ventilated area.
- If affected by dust, remove to fresh air. Irrigate eyes with plenty of water for 10 minutes. Wash skin thoroughly with mild soap and water.
- Clean up by wet sweeping or vacuuming and follow above safety precautions. Collect in covered containers for disposal in accordance with local authority guidelines.
- Bradys Superfine Plaster is a non-flammable product. However, can emit oxides of sulphur and carbon dioxide if heated to decomposition.

REMEMBER

STORE IN A COOL DRY PLACE AND NEVER PLACE DIRECTLY ON A CONCRETE FLOOR OR WET SAND.
