

## mastacove75

### cornice cement

**mastacove75** is a plaster based cornice cement used to attach cornice and decorative features to walls and ceilings. With an extended working time of 75 minutes, it is ideal for use on large projects where more cornice can be placed from just one mix, saving time and money.

### performance

#### Mixing

Mixes easily by hand or electric mixer to a smooth, creamy consistency.

#### Body and Grab

Good body and great initial grab. Easy to reposition cornice if needed.

#### Workback

Partially set product can be reworked and used again to deliver a polished finish for mitres. Easy to straight stop and clean.

#### Setting

An even and gradual 75 minute set which will not be accelerated by extra mixing either by drill or by hand on the hawk. This allows plenty of time for cutting and polishing mitres.

#### Sustainable

Low VOC meeting sustainable building project requirements.

### key benefits

- mixes easily to a creamy consistency
- stabilised set
- extended working time

## product information

<b>product size</b>	20kg paper bag
<b>type</b>	Setting powder cement
<b>mixing ratio</b>	1L of water to 2kg of <b>mastacove75</b>
<b>working time</b>	65 – 75 minutes
<b>setting time</b>	75 minutes
<b>system usage</b>	✓Cornice ✓Patching ✓Standard systems ✓Wet area systems
<b>voc</b>	<50g/L

## application

- Always use clean tools and containers.
- Pour the required amount of clean tap water into a container. Add the powder into water, mixing continuously to a smooth, thick consistency. Soaking is not recommended.
- Only mix enough cement to be used in 65 minutes and do not contaminate with previously mixed batches. Once the material starts to set it cannot be remixed.

## optimise product performance by:

- Storing in a dry, well ventilated environment fully protected from the weather.
- Washing tools before product dries and hardens.
- Ensuring **mastacove75** does not dry out before setting has taken place under severe hot dry conditions.

Quality  
ISO 9001

All Siniat products have been developed to meet the specific needs of the Australian market. Products manufactured in Australia comply with quality systems certified as complying with AS/NZS ISO 9001:2008 and meet the requirements of AS/NZS 2588, Gypsum Plasterboard.

The following Siniat products have been independently certified by Global GreenTag to GreenRate Level A: **mastashield**, **fireshield**, **fireshield h**, **soundshield**, **watershield**, **spanshield**, **multishield**, **curveshield**, **opal**, **trurock** and **trurock hd**. Compliance certificates are available on [siniat.com.au](http://siniat.com.au).

All Siniat plasterboard and metal products are available on the Siniat Carbon Neutral Opt-In program to help you meet your sustainability goals. Visit [siniat.com.au](http://siniat.com.au) to find out more.
