

# mastatape-in

## taping compound

**mastatape-in** is an air drying compound for bedding tape into recessed edges and butt joints for plasterboard systems. It is also suitable for second coating joints, for internal and external corners as well as fastener heads. **mastatape-in** is ideal for use with mechanical taping and setting tools, minimising time spent cleaning and mixing; perfect for projects where access to water is limited.

**mastatape-in** is the approved jointing compound for the installation of Siniat **createx** acoustic board.

## performance

### Efficient

Saves time by reducing mixing required and minimising the need to clean tools after each mix.

### Body

Smooth, creamy and ready to use, **mastatape-in** can be easily adjusted to the desired consistency with clean water.

### Taping

Flows freely from mechanical tools for fast tape application, and effortless second coating.

### Drying

Efficient drying with time available for fine edges when feathering or re-trowelling.

### Strength

Provides a strong joint when used with paper tape. Ideal for jointing and internal corners.

### Sustainable

Low VOC meeting sustainable building project requirements.

## key benefits

- fast application
- strong tape bond
- ready to use
- reduce cleaning and mixing time

## product information

product size	20kg bucket
type	Air drying premixed paste
drying time	24 hours
system usage	✓Bedding ✓Second Coat ✓Standard ✓Fire rated
voc	<50g/L
approximate density	1.37 g/cm <sup>3</sup>

## application

- Dilute to the desired consistency with small amounts of clean tap water. Always use clean tools and containers.
- Use **Siniat paper tape** with **mastatape-in**.
- Maintain a minimum 10°C working temperature during application and drying.
- Allow **mastatape-in** to dry completely between coats.
- For the strongest ready-mix joint, use **mastatape-in** for the second coat.
- Setting cements like **mastabase** and **mastalongset** must not be applied over air drying compounds.

## optimise product performance by:

- Firmly closing the lid to prevent the compound from drying out.
- Washing tools before product dries and hardens.

## about us

Siniat is one of the Etex Group's flagship commercial brands, and one of the leading global manufacturers of interior and exterior materials for drywall construction.

The Etex Group is a global family-owned business based in Belgium with a history going back to 1905.

In Australia, Etex has Siniat manufacturing facilities located in Sydney, Melbourne, Bundaberg and Brisbane and supplies steel framing, plasterboard, compounds, cornice and associated products and systems to the Australian building industry through its national distribution network.

All manufacturing plants are certified to the most current versions of the ISO management system standards for Health & Safety, Quality and Environmental Management: ISO 9001:2015 certification for quality management systems, ISO 14001:2015 certification for environmental management systems and ISO 45001:2018 certification for health & safety management systems.

All plasterboard products made in Australia have been independently certified by Global GreenTag to GreenRate Level A. Siniat's certified plasterboard products can achieve 100% Green Star points for sustainable building projects.
